PRINTING & SCANNING

MFC-L6900DW Monochrome Laser All-in-One Printer

Ideal for: Remote testing centers, hospitals, urgent care facilities, private practices, assisted living communities

Applications: Nursing stations, patient admissions, doctors/administrative offices, medical labs

Product Highlights:

- Easy device install and setup
- Includes 12,000-page cartridge for built-in value. Replace with 20,000-page cartridge to maximize savings[1]
- Triple layer security features (device, document network) help facilitate HIPAA compliance
- Help restrict user access to device via easy badge authentication through optional card reader or integrated NFC card reader
- Powerful multifunction capabilities for greater productivity, durable design for high usage, compact design fits space constrained nurses' stations
- Offers easy scan to email functionality that enables direct scanning from the device without the need to configure an email server[2]
- Large touchscreen to create customized shortcuts for frequently used features and directly scan to cloud services[3]
- Cerner-validated for seamless electronic health record (EHR) transmission

LABELING

QL-800 / QL-810W / QL-820NWB Label Printers

Ideal for: Healthcare facilities, outpatient practices, nursing homes, assisted living communities, medical labs

Applications: Visitor management, medical lab labels, patient identification labels, specimen collection labels

Product Highlights:

- Identify and vet individuals before entering a healthcare facility
- Create identification to be worn via label
- High print speeds and flexible connectivity options help improve productivity
- Print highly legible, customized labels for laboratory slides, test tubes and more on-the-fly
- Create labels with black and red print using DK-2251 up to three feet in length, from PC, Mac, iOS or Android devices (QL-810W and QL-820NWB only)

QL-1100 / QL-1110NWB Label Printers

Ideal for: Shipping, warehouse operations

Applications: Shipping of medical supplies and medical testing kits

Product Highlights:

- Prints on labels up to 4" wide; capable of printing shipping postage labels for packages
- Intelligent automatic crop function allows for users to easily print product and other barcode labels from A4/Letter size label sheet templates (Windows only)
- Integrates with several shipping applications
- Offers barcode printing capabilities ideal for labs
- Create and print labels from your mobile device to the Brother Ql-1110NWB when connected to a wireless network
