Working effectively anywhere

Smarter technology for all

Lenovo

Business PCs running Windows 10 Pro, paired with the right accessories, are the backbone of working remotely.

Windows 10 — The best devices in the world run Windows 10 Pro.

Businesses are transitioning to remote working in many industries. Here's what to keep in mind when considering the technology needed to make the change.

1 Tight integration of OS and apps

For great app performance

- **Lenovo business laptops** are optimized for **Microsoft® 365**, delivering productivity everywhere
- **Microsoft Teams web conferencing and messaging** keeps users connected and collaborative all the time
- **Windows WiFi** apps help to ensure great WiFi connections

2 Sharp visuals and great audio

For effective collaboration

- **Dual array mics** and accessories such as **Lenovo ThinkPad X1 ANC Headphones** ensure everyone can be heard clearly
- **720p HD wide-angle cameras** keep users in shot and looking good
- **Easy screen sharing within Microsoft Teams** enables clear, successful presentations

3 Strong and reliable connectivity

For effortless multitasking

- **WiFi antenna design** makes a big difference to the connectivity of the device
- **ThinkSmart View** is a dedicated web conferencing device to augment and extend built-in laptop capabilities
- **ThinkVision monitors** enable superior viewing experiences, increasing productivity, and efficiency

4 Collaboration features

For rich user experiences

- **Meeting Hot Keys*** allow users to get on calls quickly, with dedicated keys
- **Physical Camera Shutter, background blurring and noise cancellation** help to maintain privacy*
- **Dolby Vision™** and **Dolby Audio™** make for clear and successful web conferences

* device dependent

5 Long battery and device life

For assured availability everywhere

- **Rapid Charge Technology** juices up to 80% in one hour, so users are free to move around the home or wherever they are
- **Sturdy and aesthetic materials** to enhance durability, and MIL-Spec testing if available
- **Accidental Damage Protection (ADP)** helps avoid the IT expenses caused by specific kinds of damage that are common while working anywhere

6 Non-intrusive security features

For protection and productivity

- **Lenovo Vantage** helps detect and warn users of suspicious WiFi networks
- **Smart Power On** with a fingerprint reader integrated on the power button, enables quick biometric authentication
- **Windows Hello** with biometric authentication ensures that only authorized users gain access to the device

Employees need to stay productive and comfortable while working remotely. For more information about remote working solutions, **contact your Lenovo Business Partner**, today.

**BUILT FOR BUSINESS.
DESIGNED FOR YOU.**
