

## Expand the Capabilities of Your Computer

With a single USB-C connection, you can transform a laptop into a multiport workstation. Tripp Lite USB-C docks transmit high-resolution video and audio to up to 3 HDMI, DisplayPort and VGA external displays. The docks provide ports for convenient Ethernet connection, device charging and connecting peripherals like keyboards and flash drives, helping you work smarter and make the most of your equipment.

Model	Color	DISPLAYS									DATA PORTS/ QTY			PD CHARGING		STORAGE			Gb Ethernet	Audio Port	BC 1.2

Docks with multiple video ports may be able to support additional displays working either in extended mode or in clone mode (but are not supported by MacBooks).

\* Requires host (computer, laptop, tablet or phone) to support Multi-Stream Transport - often called MST.
